**Subject:** Dimock - Analytical Status Update

Ms. Caporale and Ms. Warner,  
I was requested by OSC Rich Rupert to let you know which parameters EPA was sampling for the Dimock Residential Well Site and additionally what parameters we thought Ft. Meade was to analyze for. Please find the attached spreadsheet. Column A of Table 1 lists which lab the parameter will be analyzed at.

We were requested to add DRO and GRO analysis (Method 8015M) to our list. Are you able to analyze for these parameters?

Also, do you have a DAS Case Number assigned for this project?

Please let me know if you have any questions.

Thanks,

Suddha Graves
